Career Objective

Motivated B.Sc Information Technology student with strong knowledge in programming and web technologies. Seeking an entry-level role in software or frontend development to build scalable applications and enhance technical expertise.

Education

- B.Sc Information Technology – Shri Sakthikailassh Women’s College, Salem (2024 – Present)
- Higher Secondary – Government Girls Higher Secondary School, Salem (2023 – 2024)
- SSLC – Balabarathi Matriculation Higher Secondary School, Salem (2021 – 2022)

Technical Skills

- Programming Languages: C, C++, Java, Python
- Web Technologies: HTML, CSS, XML
- Tools: GitHub, Arduino (Basics), Figma
- Core Skills: UI/UX Basics, Problem Solving

Internship Experience

- UI/UX Design Intern – LM Techs, Salem (Dec 2025)
- Learned UI/UX design principles and design thinking methodologies
- Created wireframes, mockups, and prototypes using Figma
- Designed responsive mobile and web user interfaces
- Applied usability and accessibility standards in design

Projects

- Human Following Robot Developed using Arduino Uno, ultrasonic and IR sensors
Implemented logic to track and follow human movement Integrated motor driver for directional control Built obstacle detection and avoidance system

Core Competencies

- Software Development Fundamentals
- Frontend Development Basics
- Logical Thinking and Debugging
- Quick Learning and Adaptability
